Cutting a laminate sheet at an angle of 90 degree leads to development of cracks in corner after pasting. Therefore it is advisable to avoid cutting at an angle of 90 degrees.

Bonding of laminate under high humidity, plywood with high moisture content, ply with uneven surface, inferior quality adhesive and insufficient pressure may lead to delaminating/ air bubbles in between ply & laminate.

Axilam
we understand you better

about collection

Axilam is simply the lifestyle laminate. Quality that is the best and has no competition. Our legacy is one of true passion and care for our clients. We have products for every customer, veneers in every shade, Our durable laminates are always trustworthy, and the highest quality.

why axilam?

- 100% Imported design paper from European & Japanese Manufacturer
- Use A Grade Virgin Kraft Paper
- German Sanding Machine For Better Sanding
- Applying Imported Overlay Tissue Paper To Retain Shelf Life Of Laminate Surface
- 100% Phenolic & Melamine Resin

Our Working Principles

- ◆ Quality Products
- ◆ Exclusive Designs
- ◆ Better Service

MISSION

Axi Lam Pvt. Ltd. foresees to satisfy the increasing demand of decorative laminate in various sectors by providing the best of materials for surfaces to embellish them in the most innovative and graceful way.

VISION

Axi Lam laminates aims to provide consumers with trendiest and user-friendly innovations that fulfil their various types of requirements, resulting in the gratitude and satisfaction of clients and manufacturers as well as workers. With a strong adherence to quality and precision, Axi Lam laminates promises to serve the customers with the best and the most diverse portfolio and satisfactory services.
